

Donate to FAMMedPAC! FAQ

1. What is FAMMedPAC?

Political action committees are groups organized to help elect candidates for Congress who support those groups' goals. FAMMedPAC is the only PAC advocating for family medicine.

2. Why is FAMMedPAC important?

One may make the reasonable assumption that one's Senator or Representative should already be advocating for one's goals as a citizen. While this is true, I have to tell you it is remarkable the difference that the creation of FAMMedPAC has made for our ability as an organization to gain the ear of important members of Congress. Due almost certainly in part to this advocacy, the concept of primary care and the medical home is now central to the health care debate.

3. Why should I donate?

The strength of our PAC is equivalent to the donations we are able to make. Your donation helps put us on equal footing with trial lawyers and insurance companies, who have powerful PACs of their own.

4. How can I donate?

To learn more, and to donate, go to: <http://www.aafp.org>, and under Policy and Advocacy, click on FamMedPAC.

5. What recognition is there for donating?

Not only is our State recognized for each individual donor, gifts of \$100 or greater are also recognized with a keepsake pin acknowledging your effort.
