

Alaska's Healthcare Webinars:

HPV vaccination in Alaska: Safety, benefits and efficacy. A provider's guide to the evidence.

*Sponsored by the State of Alaska Immunization Program
and Let Every Woman Know Alaska*

*Co-provided by the Alaska Nurses Association and
the Alaska AHEC (Area Health Education Centers)*

**Friday June 26, 2015
8:30 am - 10:00 am**

Presented by:

Joanie Mayer Hope, MD/ Board Certified Gynecologic Oncologist

Dr. Hope is the founder and managing partner at Alaska Women's Cancer Care, Director of Gynecologic Oncology at Providence Alaska Medical Center and Alaska Native Medical Center.

and ***Stephanie Massay MPH, MT(ASCP)***

Stephanie has 16 years of public health experience with the Alaska Division of Public Health and currently serves as the Immunization program training and education manager.

After completing this webinar you will be able to :

- ◆ Describe and communicate the burden of HPV disease in men and women.
- ◆ Define the importance of HPV vaccination for cancer prevention and the rationale for vaccinating at ages 9 to 26.
- ◆ Relay useful and evidence based information about HPV vaccine to patients and/or parents to aid in making the decision to vaccinate.

Primary audience: Physicians, Pharmacists, Nurse Practitioners, Physician Assistants, Nurses, Medical Assistants, Community Health Aides, or any other staff who work with children, adolescents and their parents in primary care settings.
