

AKAFP NEWS

Christmas Greetings from the SDAFP

Christmas Edition

DECEMBER 19, 2025

As we celebrate the Christmas Season, Thank You for the compassion, dedication, and commitment you show your patients and communities every day. Your work throughout the year truly embodies the heart of family medicine.

This last year I asked you to complete a survey about Linkages to Behavioral Health being conducted by Agnew::Beck Consulting. It was a statewide survey with many stakeholders. Your participation was key and they have just published the findings. I wanted to share this with you and thank you for responding earlier this year to the survey. I get a lot of requests to send

information out to you for surveys and other things. I am very careful about what I pass onto you because I value your time and I do not forward things that do not impact you as family physicians. The results of this survey are helpful to you so I hope you will read through the results. Survey Results: [Click Here](#)

Rooms at the Alyeska and Conference Information

The Alyeska has been wonderful to work with this year. Our AKAFP room block ran out over two weeks ago and they added rooms. They have extended our drop date until January 6, 2026. So please if you need a room get it booked. When this block is gone, rates will go up.

We have around 60 people already registered for the conference and early registration ends 12/31/2025. If you have to wait until 2026 because of your CME funds, I will leave the early bird registration online for you. We want you to attend.

CME– This conference is worth a LOT Of CME Hours! It includes 2 Group KSA's along with 2 options for workshops. Option one is a shortened National Procedures Institute HRT 3 hour workshop and the second is a 3 hour Fascial Distortion workshop led by our own Dr. Todd Capistrant!

We hope we will see you there!! [Register Here](#)

Dues

Because the AAFP does our dues collections and sends plenty of notices to all of you, I do not send out additional dues requests at the state level. Please make sure that whoever takes care of paying your dues is aware “tis the season”.

AAFP Speak Out Opportunities

Source: The American Academy of Family Physicians

The American Academy of Family Physicians (AAFP) Speak Out tool enables you to directly contact your state officials, members of Congress, or the Office of the President on the issues that matter most to primary care.

[Click Here for active Speak Out campaigns](#) you can use to amplify your voice and help shape the future of family medicine.

Merry Christmas and Happy New Year from the AKAFP!
